Node®
seating

Steelcase

VERSATILE SEATING

The benefits of Node aren't confined to the classroom. Today's workplace also thrives on collaboration, transition, and movement—qualities integral to the design of Node. So no matter where you are—the lobby, the training room, or the lab—discover the chair that goes anywhere you work.

MOVE. STORE. FIT.

Designed by Steelcase Design Studio in collaboration with IDEO, Node allows you to move freely and create dynamic spaces. In a meeting, a space can easily be shifted from presentation to team-based activities and back again. A chair so thoughtfully designed can be summed up with three simple words: move, store, fit.

MOVE.

Node with worksurface is shown above in various room configurations.

STORE.

Mobile workers need a place to store bags and personal items that otherwise would sit on the floor.

FIT.

Not all workers are the same. The Node chair's worksurface was designed to accommodate both left- and right-handed users, and to provide a place for laptops, tablets and notebooks.

LEARNING SPACES

A space shouldn't dictate the quality of a presentation. Knowing this, Node is designed with a mobile base allowing the space to be easily arranged into presentation mode, group mode and back again.

LOBBY AND CAFE AREAS

Node makes a strong first impression with its clean lines and range of vibrant colors. And its unupholstered frame means it's durable and easy to maintain in high-traffic areas.

TOUCHDOWN SPACES

Available in both chair and stool heights, Node enables workers to touchdown, chat, and work in short stints. And because Node fits comfortably in small spaces, collaboration isn't constrained by limited floor space.

HEALTHCARE

Quick cleanup paired with ease of mobility are healthcare essentials. Node allows fast-paced workers to get comfortable quickly with a single adjustment of seat height. And its bright colors are a welcome addition to an otherwise sterile environment.

worksurface depth adjustment	7 1/4" to 15"	7 1/4" to 15"	7 1/4" to 15"
maximum width between arms	20 1/8"	20 1/8"	20 1/8"
worksurface height from floor	28 1/2"	N/A	N/A

COMPONENTS

Flexible seat. Flexible seat with simple adjustments keeps people comfortable in a variety of postures.

Easy maintenance. Comfort without upholstery means easy maintenance.

Open seat design. Open seat design offers easy access, while arms serve as bag or purse hooks.

Swivel seat. Swivel seat keeps open sight lines.

Casters. Casters lend mobility for quick, easy transitions between configurations.

Cupholder. Optional cupholder frees up worksurface area for analog resources and technology.

Base. Base keeps bags and personal belongings out of the aisle.

Personal worksurface. Personal worksurface is adjustable, non-handed, and large enough to support digital and analog resources.

Tablet stand. Tablet stand supports all top-selling tablets and smartphones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.

Steelcase warranty. Steelcase warranty with elevated durability testing makes Node an easy choice.
